Cornell Notes (PP) Topic: Start of the Industrial Revolution

Essential Question: What unique circumstances led to the Industrial Revolution starting in Britain?

[You will use these notes to create a flow chart demonstrating the answer to the Essential Question.]

- Left Side:
- 1) What is the key change w/ this revolution?
 - 2) Predict what would be needed?

Sep 18-12:57 PM

Oct 2-7:39 AM

Work Before Industrial Revolution:

- Most people lived in rural farming villages
- Self-sufficient farming on landlords' estates left one field fallow (empty) to get fertilized
- Whole families worked together
- Practices changed very little for hundreds of years

Use your notes, power points & q-notes to complete each box in the flowchart. (15 pts)

What unique circumstances led to the Industrial Revolution starting in Britain???

1. LAND USE CHANGED
